SCOPE:

The purpose of this policy is to provide *Out-of-Network* payment policies for all CHRISTUS Health Plans lines of business. Coverage for Out of Network (OON) services provided to a CHRISTUS Health Plan member depends on several factors, including whether the services meet the plan’s definition of Covered Services and whether the plan’s utilization management requirements have been satisfied.

DEFINITIONS AND ACRONYMS:

- **Covered Service(s)** or **Covered Benefit** means a benefit or service incurred by or on behalf of a Member for those services or supplies which are:
  - Administered or ordered by a Physician or other qualified Provider;
  - Medically Necessary to the diagnosis and treatment of an Injury or Illness;
  - Not excluded by any provision of the Contract; and
  - Incurred while the Member’s coverage is in force under the Contract.

- **Emergency Medical Condition** -- is a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, would reasonably expect the absence of immediate medical attention to result in:
  - Serious jeopardy to the health of the individual or, in the case of a pregnant woman, the health of the woman or her unborn child;
  - Serious impairment to bodily functions; or
  - Serious dysfunction of any bodily organ or part

** Emergency medical condition status is not affected if a later medical review found no actual emergency present.

- **Urgently Needed Services** – covered services that:
  - Are not emergency services as defined in this section but are medically necessary and immediately required as a result of an unforeseen illness, injury, or condition;
  - Are provided when:
    - The enrollee is temporarily absent from the plan’s service area and therefore, he/she cannot obtain the needed service from a network provider; or
    - When the enrollee is in the service or continuation area but the network is temporarily unavailable or inaccessible; and
    - Given the circumstances, it was not reasonable, for the enrollee to wait to obtain the needed services from his/her regular plan provider after the enrollee returns to the service area or the network becomes available.
• Out of Network (OON) Services are services provided by a provider who is not within the network.
• In Network (INN) Services are services provided by a provider who is within the network.
• A Qualified Service is a service where the TRICARE Manuals specify that an OON provider must be paid according to the INN benefit.
• An Unqualified Service is a service where the TRICARE Manuals specify that an OON provider must be paid at the POS benefit.
